INTERNSHIP PROPOSAL

What is AgileBrains?

AgileBrains is a talent-focused platform part of MicroAgility, owned by MicroAgility. It operates under the broader MicroAgility framework, utilizing its expertise in strategy execution and talent management for IT projects.

By leveraging our talent teams for staff augmentation or project outsourcing, you can access a diverse range of skill sets to fill your resource gaps without compromising the speed, quality, and budget for your most critical projects.

AgileBrains Internship Program

Agilebrains is committed to fostering talent and nurturing the next generation of tech professionals. Our internship program aims to provide students with hands-on experience, mentorship, and exposure to real-world projects. By collaborating with Agilebrains, interns will gain valuable skills, contribute to meaningful work, and prepare for successful careers in the tech industry.

This program is ideal for those aspiring individuals who want to further develop their skills in Sales, Marketing or Development fields and looking for a perfect start to learn International Markets. The following are the main key areas to focus considering the eligibility of candidates for this program.

Excellent Communication Skills:
Having top notch communication skills as per US standards. Must be having fluid communication written and spoken both.

Burning Desire to Learn and Grow:
Those who have the passion to learn more and further grow in the field and have driving instincts to test methodologies and apply that knowledge in real world scenarios.

Attitude of getting work done:
Important personality trait of ‘getting work done’ attitude. Whatever has been assigned, they have the dedication to complete in the best possible way.

Recruitment Process

- Application submission.
- Screening interviews.
- Final interviews.

Academic Performance:
Applicants must have a minimum GPA of 3.0. Relevant coursework and projects will be considered

Passion for Technology:
We seek candidates who are curious, eager to learn, and passionate about tech.

Collaboration Skills:
Interns will work in cross-functional teams, so strong communication and teamwork are essential.

Program Structure

1

Orientation and Training:
Interns will participate in an orientation session to learn about AgileBrains' culture, values, and expectations.

2

Project Assignments:
Each intern will be assigned to a project team based on their skills and interests.

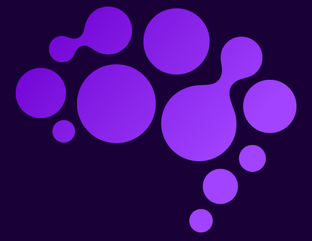
3

Weekly Check-Ins:
Regular check-ins with mentors to discuss progress, challenges, and learning objectives.

4

Midterm Review:
A midpoint evaluation to assess interns' performance and address any concerns.

5

Final Presentation:
Interns will present their project outcomes to the Agilebrains team. Feedback and recommendations for improvement will be provided.


THANK YOU!
