## Junior Technical Writer

0-2 Years exp | Lahore Based Only

Imanami Pakistan (Pvt.) Ltd. is looking for a Junior Technical Writer. The candidate should be passionate about writing and have a will to excel in the writing profession.

### Job Description:

- Work includes gathering information, writing, and editing content for the company's product.
- Write knowledgebase articles based on client queries and new features of our product.
- Work according to industry standards for writing, editing, usability, and format.
- Work as part of the Technical Communication team and assist in product documentation.
- Diagnose and troubleshoot software-related technical issues.
- Replicate scenarios in virtualized lab environments to understand the client queries.

### Required Skills:

- Be able to take complex technical information and relay it in written form in a logical and user-friendly format.
- Be familiar with HTML editors.
- Excellent problem-solving and communication skills.
- Ability to provide step-by-step technical help, both written and verbal.

**Note:** You may be asked to demonstrate your writing ability by writing on a given topic.

### Qualification:

- BS degree in Computer Science, Mass Communication, or relevant field.
- Have a strong command over the English language.
