NdcTech launches its Management Trainee Program

About Ndc

NdcTech is building Digital Banks of the future, helping Banks to deliver on their digital strategies by launching new digital brands, digitizing processes, modernizing digital experiences, and launching new innovative digital capabilities such as mobile payments and digital wallets.

Our workforce of certified individuals serves clients by delivering transformational services in over 21 countries globally. We enhance the digital capabilities of banks by driving innovations to create new products and business models to create seamless customer experience and

deliver best-of-breed technology solutions backed by world class services and training capabilities.

OUR SERVICES

- We cater to the unique needs of all Banks and Financial Institutions
- Core Banking Modernization
- Digital Banking
- Managed Services
- Banking on the cloud

Management Trainee Program 2022

NdcTech Management Trainee program is designed to challenge talented graduates to kick-start their careers, realize their potential, and become the next generation of leaders.

This program will provide students with a platform to transform the banking sector on a global scale. It offers real immersive learning experiences to trainees as they work with our rich clientele of Banks & Financial Institutions. Transition into the corporate world with ease through our rigorous classroom training and a mentor that is assigned to each trainee during the initial months.
